FOR IMMEDIATE RELEASE

DEBT: GET OUT OF IT BY WRITING CERTAIN WORDS ON YOUR BILLS AND SENDING THEM INTO THE GOVERNMENT

Nearly 80 Year Old Government Program Settles Any And All Debt... Write Certain Words In A Certain Way, Right On Your Bills; Then Send Those Bills, All Marked-Up And Written On In A Particular Way, Into Certain Government Locations To Have The Debt Paid

All bills are claims of debt, whether they're for your mortgage, car, credit cards, taxes, student loans, utilities, etc. These bills typically come to your NAME, in all capital letters, which is a commercial version of you created at birth. This bill, this claim of debt, which comes to the commercial version of your NAME, typically has a payment coupon attached to it. This coupon is actually a *check*, which can be used to pay the debt being claimed, if you know *what* to write on the billing statement and coupon, *how* to write it, and *where* to send it to be paid within the UNITED STATES FEDERAL GOVERNMENT.

According to *DISSOLVE Your DEBT* author JONATHAN HAWLEY, "Since 1933 the U.S. FEDERAL GOVERNMENT has made it public policy and public law to pay all citizens' debt dollar for dollar, whether it's public debt or private debt." This administrative ability has been cleverly hidden in plain sight for almost 80 years now. Our money used to be backed by a gold standard, but that ended in 1933, and all gold became illegal to hold and was ordered to be turned-in to the government. Since then, our money has itself operated as individual instruments of debt (promissory notes) and has been backed by nothing but the "faith, spirit, and energy" of the people that live and work in this country.

As a result, we could no longer truly or effectively pay for anything, because the money no longer had any tangible value, or equity. So, our government granted its citizenry the ability to settle all their debt claims, no matter what they were, their amount, or frequency, by writing certain words, in a certain way, right on the bills themselves! Then, once marked-up correctly and submitted to the proper channels within the government, those corporate debt claims would be 100% settled, directly paid-in-full from the United States Treasury to the company claiming the debt, all on behalf of the account holder who received the bill.

DISSOLVE Your DEBT was first published in 2010, and www.dydorders.com was created in 2012. Its sole purpose is & has been to fill-in the educational gaps necessary to help people actually, finally, & completely get out of debt. The DISSOLVE Your DEBT Manual is a 75-page instructional e-book that teaches consumers exactly what to do, & how, to accomplish this in easy, step-by-step detail...all in accordance with fact, history, & law written into the U.S. Congressional record & the U.S. Statutes-At-Large.
